

AP CS FINAL: CLICK RACER

Designed and Built by Anirudh Krishnan, Sahaj Patel, and
Harry Wang

Click to Continue

Objectives

- ★ Race to the edge of the screen!
- ★ Battle your opponent in an intense click off!
- ★ Measure your reaction time and see who's faster!
- ★ Try not to misclick or you move backwards! OH NO!

Click to Continue

Rules

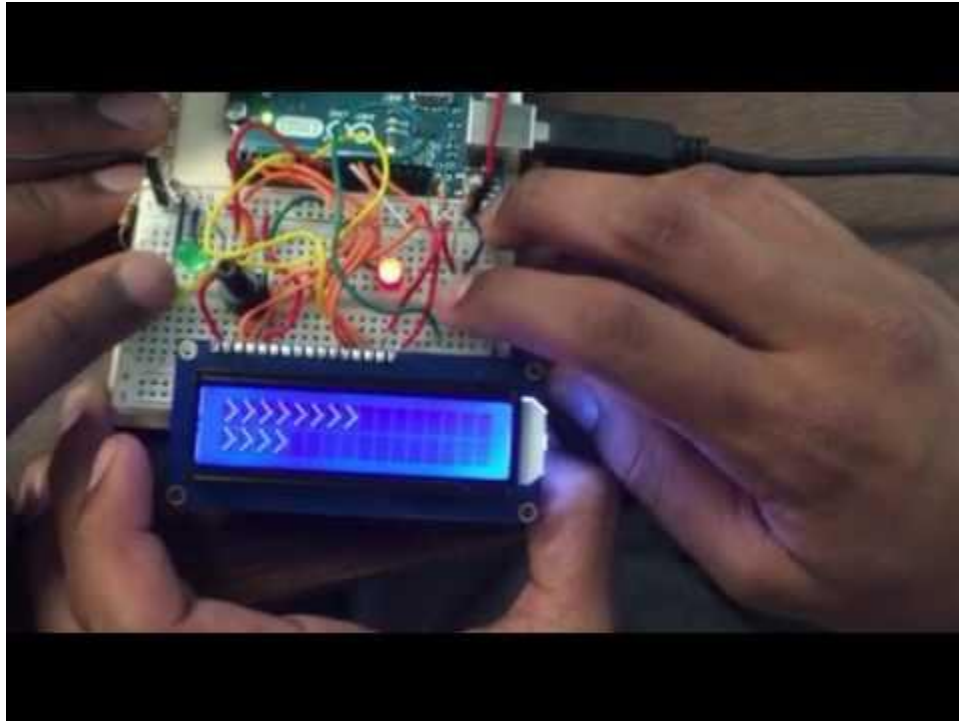

- ★ Each racer gets one button!
- ★ When the green light goes on click the button as many times as you can!
- ★ Watch out for the red light!
 - If you click the button when it is red you will move back one space!
- ★ Every three clicks is one step forward!
- ★ To reset, unplug and replug the power cable
